1.2 The Investment Manager

L1 Capital International

The Investment Manager (authorised representative number 001 273 764) is a global investment manager established as a joint venture between the parent company of L1 Capital Pty Ltd ("L1 Capital") and Perpendo Investment Management Pty Ltd ("Perpendo").

L1 Capital is a global investment manager with funds under management of approximately AUD\$3 billion. L1 Capital currently manages capital for a range of investors including large superannuation funds, endowment funds, private banks, financial planning groups, asset consultants, family offices, high-net worth individuals and retail investors. L1 Capital was established in 2007 by Raphael Lamm and Mark Landau, and now employs a team of 9 investment personnel and 5 operations staff in its Melbourne office.

Perpendo was established in 2018 by David Steinthal and is 100% owned by its investment team.

Perpendo and L1 Capital have a consistent investment philosophy and process and a complementary investment style.

The Investment Manager is led by David Steinthal as the chief investment officer, David Khaw as the portfolio manager and Chen Lin as the senior investment analyst.

The Investment Manager aims to deliver attractive risk-adjusted returns over a long-term investment horizon by investing in high quality companies that it understands well and that have favourable cashflow-based valuations. The Investment Manager also aims to deliver high-quality service to investors.

L1 Capital provides operational support to the Investment Manager, enabling the investment team to focus on investing.

02 How the Fund works

The Fund is a registered managed investment scheme governed by the Constitution. The Fund comprises assets which are acquired in accordance with the Fund's investment strategy. Direct investors receive units in the Fund when they invest. In general, each unit represents an equal interest in the assets of the Fund subject to liabilities; however, it does not give investors an interest in any particular asset of the Fund.

If you invest in the Fund through an IDPS you will not become an investor in the Fund. The operator or custodian of the IDPS will be the investor entered in the Fund's register and will be the only person who is able to exercise the rights and receive the benefits

of a direct investor. Your investment in the Fund through an IDPS will be governed by the terms of your IDPS and you should direct any queries and requests relating to your investment to your IDPS Operator. The Responsible Entity will however allow IDPS investors to access its dispute resolution process as if they were direct investors. Unless otherwise stated, the information in the PDS applies to direct investors.

2.1 Applying for units

You can acquire units by completing the Application Form that accompanies this PDS. The minimum initial investment amount for the Fund is \$25,000.

Completed Application Forms should be sent along with your identification documents (if applicable) to:

L1 Capital International Fund

c/o Mainstream

GPO Box 4968, Sydney NSW 2001

Or by fax to +61 2 8244 1916

Or by email to L1@Mainstreamgroup.com

Please note that cash and cheques cannot be accepted.

We reserve the right to accept or reject applications in whole or in part at our discretion. We have the discretion to delay processing applications where we believe this to be in the best interest of the Fund's investors.

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price for the first issued units will be \$1.00. Subsequently, the Application Price will be, in general terms, equal to the Net Asset Value ("NAV") of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Buy Spread"). At the date of this PDS, the Buy Spread is 0.15%.

The Application Price will vary as the market value of assets in the Fund rises or falls. Any interest earned on application money will be paid to the Fund.

2.2 Making additional investments

You can make additional investments into the Fund at any time by sending us your additional investment amount together with a completed Application Form. The minimum additional investment into the Fund is \$5,000.

2.3 Distributions

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the Distribution Period.

The Fund usually distributes income semi-annually however, Equity Trustees may change the distribution frequency without notice. Distributions are calculated effective the last day of each Distribution Period and are normally paid to investors as soon as practicable after the Distribution Calculation Date.

Investors in the Fund can indicate a preference to have their distribution:

- reinvested back into the Fund; or
- directly credited to their their Australian domiciled bank account.

Investors who do not indicate a preference will have their distributions automatically reinvested. Applications for reinvestment will be taken to be received immediately after the relevant Distribution Period.

In some circumstances, the Constitution may allow for an investor's withdrawal proceeds to be taken to include a component of distributable income.

Indirect investors should review their IDPS Guide for information on how and when they receive any income distribution.

2.4 Access to your money

The Fund is intended to be liquid and investors in the Fund can generally seek to withdraw their investment on any Business Day by completing a written request to withdraw from the Fund and mailing it to:

L1 Capital International Fund

c/o Mainstream

GPO Box 4986, Sydney NSW 2001

Or by fax to +61 2 8244 1916

Or by email to L1@Mainstreamgroup.com

The minimum withdrawal amount is \$10,000. Once we receive and accept your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s).

Withdrawal requests are processed on each Business Day and Equity Trustees will generally allow an investor to access their withdrawal proceeds within 10 days of acceptance of a withdrawal request by transferring the withdrawal proceeds to such investors' nominated bank account. However, Equity Trustees is allowed to reject withdrawal requests, and also to make payment up to 21 days after acceptance of a request (which may be extended in certain circumstances) as outlined in the Constitution and Reference Guide.

We reserve the right to accept or reject withdrawal requests in whole or in part at our discretion.

The price at which units are withdrawn is determined in accordance with the Constitution ("Withdrawal Price"). The Withdrawal Price is in general terms, equal to the NAV of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Sell Spread"). At the date of this PDS, the Sell Spread is 0.15%.

The Withdrawal Price will vary as the market value of assets in the Fund rises or falls.

Equity Trustees reserves the right to fully redeem your investment if your investment balance in the Fund falls below \$10,000 as a result of processing your withdrawal request. In certain circumstances, for example, when there is a freeze on withdrawals, where accepting a withdrawal is not in the best interests of investors in the Fund including due to one or more circumstances outside its control or where the Fund is not liquid (as defined in the Corporations Act), Equity Trustees can deny or suspend a withdrawal request and you may not be able to withdraw your funds in the usual processing times or at all. When the Fund is not liquid, an investor can only withdraw when Equity Trustees makes a withdrawal offer to investors in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

If you are an Indirect Investor, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator and the terms of the IDPS.

2.5 Unit pricing discretions policy

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available free of charge on request.

2.6 Additional information

If and when the Fund has 100 or more direct investors, it will be classified by the Corporations Act as a 'disclosing entity'. As a disclosing entity, the Fund will be subject to regular reporting and disclosure obligations. Investors would then have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report lodged with ASIC ("Annual Report");
- any subsequent half yearly financial report lodged with ASIC after the lodgement of the Annual Report; and
- any continuous disclosure notices lodged with ASIC after the Annual Report but before the date of this PDS.

Equity Trustees will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required.

Copies of these documents lodged with ASIC in relation to the Fund may be obtained from ASIC through ASIC's website.

04 Risks of managed investment schemes

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Fund. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

The Responsible Entity and the Investment Manager do not guarantee the liquidity of the Fund's investments, repayment of capital or any rate of return or the Fund's investment performance. The value of the Fund's investments will vary. Returns are not guaranteed and you may lose money by investing in the Fund. The level of returns will vary and future returns may differ from past returns. Laws affecting managed

investment schemes may change in the future. The structure and administration of the Fund is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial or taxation advice, you should contact a licensed financial adviser and/or taxation adviser.

4.1 Fund Risk

Fund risk refers to specific risks associated with the Fund, such as termination and changes to fees and expenses. An investment in the Fund is governed by the terms of the Constitution and this PDS, each as amended from time to time. The Responsible Entity may elect, in accordance with the Constitution and the Corporations Act, to terminate the Fund.

4.2 Investment Strategy Risk

Investment in the Fund carries the risks that the Investment Manager's strategies might not be successful. There is no guarantee that the investment strategy of the Fund will meet its objectives.

4.3 Equity Funds Risk

The value of the equity securities the Fund holds, directly or indirectly, may decrease in response to the risks to which that particular company is itself exposed such as changes in management, actions of competitors and regulators, changes in technology and market trends. The company's value may also decrease in response to general market, business and economic conditions which may cause the Fund's unit price to decrease.

4.4 Market Risk

Markets are subject to a host of factors, including economic conditions, government regulations, market sentiment, local and international political events and environmental and technological issues. Market risk may have different impacts on each investment and investment style.

Any investment made in a specific group of assets is exposed to the universal risks of that asset market. However, there can be no guarantee that losses equivalent to or greater than the overall market will not be incurred as a result of investing in such assets.

4.5 International Investments risk

The Fund will invest in investments that have exposure to a range of international economies, currencies and tax regimes. Global and country specific macroeconomic factors may impact the Fund's international exposure. Governments may intervene in markets, industries, and companies and may alter tax and legal regimes and may act to prevent or limit the repatriation of foreign capital. Such interventions may impact the Fund's return.

4.6 Currency Risk

Investments in securities which are denominated in foreign currencies gives rise to foreign currency exposure. This means that the value of these investments will vary depending on changes in currency exchange rates. It is not the Investment Manager's intention to hedge the foreign currency exposure of the Fund arising from investments in offshore markets. However, the Investment Manager may use derivative contracts to hedge significant currency exposure if it is considered in the best interests of the Fund's investors.

4.7 Limited Diversification

The Investment Manager intends to diversify the Fund's investments as it deems appropriate and consistent with the Fund's investment objective. If the Fund's investment portfolio is concentrated in a small number of investments, the portfolio will be subject to a greater level of volatility.

4.8 Performance Fee Risk

Subject to the performance of the Fund, the Investment Manager may be entitled to receive a performance fee. The performance fee may create an incentive for the Investment Manager to make investments that are riskier or more speculative than would be the case in the absence of a fee based on the performance of the Fund.

4.9 Operational risk

Operational risk includes those risks which arise from carrying on a funds management business. The operation of the Fund requires the Responsible Entity, Investment Manager, Custodian, and other service providers to implement sophisticated systems and procedures. Some of these systems and procedures are specific to the operation of the Fund. Inadequacies with these systems and procedures or the people operating them could lead to a problem with the Fund's operation and result in a decrease in the value of Units.

4.10 Regulatory Risk

Changes to laws and regulations governing financial markets and instruments could have adverse implications for your investment in the Fund.

4.11 Key Person Risk

The Fund's performance is dependent on the expertise and decisions of the Responsible Entity and the Investment Manager. As such, there is a risk that changes in key personnel of the Responsible Entity and/or the Investment Manager may negatively impact Fund performance.

The objective of the Fund is to outperform the Benchmark net of fees and expenses over rolling 5 year periods.

5.2 Benchmark

MSCI World Net Total Return Index in AUD

5.3 Minimum suggested investment time frame

At least five years

5.4 Investment Guidelines

L1 CAPITAL INTERNATIONAL FUND

Typical Investments	Global equities
Cash Levels	0 - 25%
Gearing	No
Shorting	No
Typical number of positions	20 - 40

Note: The Allowable Investment and investment limits are both broader than the Investment Guidelines listed above. The Investment Manager may invest in other investments and/or exceed the Investment Guidelines where it believes it is in the best interests of investors to do so.

5.5 Risk level of the Fund

High

There is a risk investors may lose some or all of their initial investments. Higher risk investments tend to fluctuate in the short term but can produce higher returns than lower risk investments over the long term.

5.6 Investor suitability

The Fund is designed for long-term investors seeking exposure to a diversified investment in the international share market and strong capital growth over the long term.

5.7 Investment style and philosophy

The Investment Manager believes that quality and value are key drivers of long-term total shareholder returns. The Investment Manager will invest in businesses assessed to be high quality, particularly those that demonstrate:

- durable business models;
- growing free cashflow;
- an ability to sustain a high return on invested capital; and
- an ability to reinvest capital at attractive incremental returns and/or return excess capital efficiently to shareholders

The Investment Manager has developed a detailed investment approach centred around assessing four key criteria:

- Business drivers: Identification of the critical factors that drive the economic performance of the business, and assessing the degree to which they are measurable and predicable and how these drivers are expected to trend over the investment horizon.
- Industry structure: Industries which supports shareholder value creation over the investment horizon, taking into account the extent to which there are durable barriers to competition, the degree of consolidation and competitive intensity, the risk of substitutes, potential technology disruption and the regulatory environment.
- Business economics and financial strength: Businesses which have robust business economics, particularly those that demonstrate pricing power, high-operating

margins, predictable financial performance, high-cash conversion and high returns on invested capital and incremental invested capital. The financial strength of the business, including the financial risk to equity investors from absolute debt levels, operating leverage and debt structures is assessed and is critical to both portfolio inclusion and the size of the investment in the portfolio.

- Management: The capital allocation track record of the board and management, how they are expected to allocate capital in the future and the structure of incentive compensation are reviewed to assess shareholder alignment.

The Investment Manager's investment universe is further refined through detailed quantitative assessment of economic cashflow, earnings and returns on capital invested in the business to assess valuation compared to the security price.

5.8 Investment approach

The Investment Manager uses a fundamental, bottom-up, independent research process to identify investments and assess their potential to provide attractive risk-adjusted returns and lower risk of a permanent loss of capital value over the investment horizon.

While this process is iterative and involves many stages of analysis which can occur concurrently, below is an outline of the steps from company specific research to the formation and maintenance of a portfolio.

1. Idea Generation
2. Qualitative Assessment Rating
3. Detailed Bottom-up Analysis including Risk Assessment
4. Financial Modelling
5. Valuation
6. Portfolio Construction

5.9 Changing the investment strategy

The investment strategy and Investment Guidelines may be changed. If a change is to be made, investors in the Fund will be notified in accordance with the Corporations Act.

5.10 Environmental, social and corporate governance considerations

The Investment Manager believes that businesses which adopt sensible environmental, social and corporate governance ("ESG") practices are more likely to grow in a sustainable manner and maximise shareholder value over the longer term. Therefore, while decisions about the selection, retention or realisation of investments for the Fund are primarily based on company and industry fundamentals, the Investment Manager does consider ESG issues as part of its assessment when making these decisions.

5.11 Fund performance

The Fund is a new fund and has no track record.

Further reading...

You should read the important information in the Reference Guide in section 3 titled "Allowable Investments" in respect of other investments which the Fund may make before making a decision. Go to the Reference Guide which is available at www.eqt.com.au/insto and www.L1international.com. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long term returns.

For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower contribution fees and management costs where applicable. Ask the fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the Australian Securities and Investments Commission (ASIC) website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

The information in the following template can be used to compare costs between different simple managed investment schemes. Fees and costs can be paid directly from an investor's account or deducted from investment returns. For information on tax please see Section 7 of this PDS.

MANAGEMENT COSTS

The fees and costs for managing your investment^{1,2}

Management fees: 1.2% p.a. of the value of the NAV of the Fund

The management fee is calculated and accrued daily and is payable monthly.

Performance fees³: 15% of the amount by which the Fund's performance exceeds the MSCI World Net Total Return Index in AUD (**Benchmark**) (after management fees and expenses but before performance fees) in a Performance Period.

Performance fees are estimated to be 0.30% p.a. of the NAV of the Fund⁴.

The performance fee is calculated and accrued daily and is payable every 6 months.

Any underperformance from a prior Performance Period must be recouped before a fee can be taken. Further, no performance fee will be paid unless the unit price at the end of the Performance Period is higher than the unit price at the beginning of that Performance Period (after adjusting for any distributions paid during that Performance Period).

Expenses⁵: Estimated to be 0.00% p.a. of the value of the NAV of the Fund as any ordinary expense will be deducted from the management fee.

¹All fees quoted above are inclusive of Goods and Services Tax (GST) and net of any Reduced Input Tax Credits (RITC). See below for more details as to how management costs are calculated.

²The amount of these fees can be negotiated. See "Differential fees" below.

³This represents the performance fees which are payable as an expense of the Fund to the Investment Manager. See "Performance fees" below for more information.

⁴Based on the current calculation methodology for the performance fee, the Responsible Entity has estimated that the typical ongoing performance fee payable per annum will be 0.30% of the NAV of the Fund. This estimate assumes that the Fund outperforms the Benchmark (after management fees and expenses but before performance fees) by 2%.

⁵Expenses do not include the Fund's transactional and operational costs some of which are recovered via the buy/sell spread.

6.1 Additional Explanation of fees and costs**What do the management costs pay for?**

Management costs comprise the additional fees or costs that an investor incurs by investing in the Fund rather than by investing directly in the underlying assets of the Fund. Management costs include management fees and performance fees.

In addition, management costs do not include transactional and operational costs (i.e. costs associated with investing the underlying assets, some of which may be met by Buy/Sell Spreads).

6.2 Management fees

The management fees of 1.2% p.a. of the NAV of the Fund are payable to the Responsible Entity of the Fund for managing the assets and overseeing the operations of the Fund. The management fees are accrued daily and paid from the Fund monthly in arrears and reflected in the unit price. As at the date of this PDS, ordinary expenses such as investment management fees, custodian fees, administration and audit fees, and other ordinary expenses of operating the Fund are covered by the management fees at no additional charge to you.

The management fees shown above does not cover extraordinary expenses (if they are incurred in future), such as litigation costs and the costs of convening investor meetings. If extraordinary expenses are incurred they will be charged directly from the assets of the Fund and not from the management fee.

6.3 Performance fees

Performance fees accrue to the Investment Manager where the investment performance of the Fund exceeds the performance of the MSCI World Net Total Return Index in AUD ("Benchmark").

The performance fee is calculated as 15% of the difference between the Fund's return and the Benchmark (after management expenses but before performance fees), calculated and accrued daily and paid from the Fund within 30 days of the end each 6 month period, generally being 30 June and 31 December (Performance Period).

No performance fee is payable unless:

- the unit price at the end of the relevant Performance Period is greater than the unit price at the beginning of that Performance Period (after adjusting for any distributions paid during the Performance Period);
- any accrued underperformance (in dollar terms), as against the Benchmark, from prior Performance Periods has been made up;

However, this is not a forecast as the actual performance fee for the current and future financial years may differ. The Fund does not have a track record to assist in determining an estimate of performance fees and the Responsible Entity cannot guarantee that performance fees will align with its estimate or that

the performance of the Fund will outperform the Benchmark. Information on current performance fees will be updated from time to time and available at www.eqt.com.au/insto.

6.4 Transactional and operational costs

In managing the assets of the Fund, the Fund may incur transactional and operational costs such as brokerage, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold, and the costs of derivatives used for hedging purposes (if applicable). This generally happens when the assets of a fund are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of a fund.

The Buy/Sell Spread reflects the estimated transaction costs incurred in buying or selling assets of the Fund when investors invest in or withdraw from the Fund. The Buy/Sell Spread is not an additional cost to the Fund but is incorporated into the unit price and incurred when an investor invests in or withdraws from the Fund and is not separately charged to the investor. The Buy Spread is paid into the Fund as part of an application and the Sell Spread is left in the Fund as part of a redemption and not paid to Equity Trustees or the Investment Manager. The current Buy/Sell Spread is 0.15% upon entry and 0.15% upon exit.

The dollar value of these costs based on an application or a withdrawal of \$25,000 is \$37.50 for each individual transaction. The Buy/Sell Spread can be altered by the Responsible Entity at any time. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion.

Transactional costs which are incurred other than in connection with applications and withdrawals arise through the day-to-day trading of the Fund's assets and are reflected in the Fund's unit price. As these costs are factored into the NAV of the Fund and reflected in the unit price, they are an additional implicit cost to the investor and are not a fee paid to the Responsible Entity. These costs can arise as a result of bid-offer spreads (the difference between an asset's bid/buy price and offer/ask price) being applied to securities traded by the Fund. Liquid securities generally have a lower bid-offer spread while less liquid assets have a higher bid-offer spread reflecting the compensation taken by market makers in providing liquidity for that asset.

We estimate that the total transaction costs for the Fund over the first full financial year will be 0.15% of the NAV of the Fund, of which 0.15% of these transaction costs is reasonably estimated to be recouped via the Buy/Sell Spread when applications or redemptions take place, resulting in a net transaction cost to the Fund of 0.00% p.a.

However, actual transactional and operational costs for future years may differ.

6.5 Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. Equity Trustees has the right to recover all reasonable expenses incurred in relation to the proper performance of its duties in managing the Fund and as such these expenses may increase or decrease accordingly. We will generally provide investors with at least 30 days' notice of any proposed change to the management costs. In most circumstances, the Constitution defines the maximum level that can be charged for fees described in this PDS. Expense recoveries may change without notice, for example, when it is necessary to protect the interests of existing members and if permitted by law.

6.6 Payments to IDPS Operators

Subject to the law, annual payments may be made to some IDPS Operators because they offer the Fund on their investment menus. Product access is paid by the Investment Manager out of its investment management fee and is not an additional cost to the investor. If the payment of annual fees to IDPS Operators

is limited or prohibited by the law, Equity Trustees will ensure the payment of such fees is reduced or ceased.

6.7 Differential fees

The Responsible Entity or Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors who are Wholesale Clients.

6.8 Example of annual fees and costs for the Fund

This table gives an example of how the fees and costs for this managed investment product can affect your investment over a 1 year period. You should use this table to compare this product with other managed investment products.

EXAMPLE – L1 CAPITAL INTERNATIONAL FUND		
BALANCE OF \$50,000 WITH A CONTRIBUTION OF \$5,000 DURING THE YEAR		
Contribution Fees	Nil	For every \$5,000 you put in, you will be charged \$0
Plus	1.50% p.a.	And , for every \$50,000 you have in the Fund you will be charged \$750 each year comprising:
Management costs		
Comprising:		
Management fees:	1.20% p.a.	\$600
Performance fees:	0.30% p.a.	\$150
Equals		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 at the end of that year, then you would be charged fees of: \$750*
Cost of Fund		What it costs you will depend on the fees you negotiate.

* This example assumes the \$5,000 contribution occurs at the end of the first year, therefore management costs are calculated using the \$50,000 balance only. Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread.

WARNING: If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.

ASIC provides a fee calculator on www.moneysmart.gov.au, which you may use to calculate the effects of fees and costs on your investment in the Fund.

You should read the important information in the Reference Guide in section 4 titled "Additional information on fees and costs" before making a decision. Go to the Reference Guide which is available at www.eqt.com.au/insto and www.L1international.com. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

07 How managed investment schemes are taxed

WARNING: Investing in a registered managed investment scheme (such as the Fund) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Fund.

The Fund is an Australian resident for tax purposes and does not generally pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Fund to which they become presently entitled or, where the Fund has made a choice to be an Attribution

Managed Investment Trust ("AMIT") and the choice is effective for the income year, are attributed to them.

You should read the important information in the Reference Guide about Taxation in section 5 titled "Other important information" before making a decision. Go to the Reference Guide which is available at www.eqt.com.au/insto and www.L1international.com. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

08 How to apply

To invest please complete the Application Form accompanying this PDS, send funds (see details in the Application Form) and your completed Application Form to:

By mail to: L1 Capital International Fund
c/o Mainstream
GPO BOX 4968, Sydney NSW 2001

Or by fax to: +61 2 8244 1916

Or by email to: L1@Mainstreamgroup.com

Please note that cash and cheques cannot be accepted and all applications must be made in Australian dollars.

8.1 Who can invest?

Eligible persons (as detailed in the 'About this PDS' section) can invest, however individual investors must be 18 years of age or over.

Investors investing through an IDPS should use the application form provided by their IDPS Operator.

8.2 Cooling-off period

If you are a Retail Client who has invested directly in the Fund, you may have a right to a 'cooling off' period in relation to your investment in the Fund for 14 days from the earlier of:

- confirmation of the investment being received; and
- the end of the fifth business day after the units are issued.

A Retail Client may exercise this right by notifying Equity Trustees in writing. A Retail Client is entitled to a refund of their investment adjusted for any increase or decrease in the relevant Application Price between the time we process your application and the time we receive the notification from you, as well as any other tax and other reasonable administrative expenses and transaction costs associated with the acquisition and termination of the investment.

The right of a Retail Client to cool off does not apply in certain limited situations, such as if the issue is made under a distribution reinvestment plan, switching facility or represents additional contributions required under an existing agreement. Also, the right to cool off does not apply to you if you exercise your rights or powers as a unit holder in the Fund during the 14 day period. This could include selling part of your investment or switching it to another product.

Indirect Investors should seek advice from their IDPS Operator as to whether cooling off rights apply to an investment in the Fund by the IDPS. The right to cool off in relation to the Fund is not directly available to an Indirect Investor. This is because an Indirect Investor does not acquire the rights of a unit holder in the Fund. Rather, an Indirect Investor directs the IDPS Operator to arrange for their monies to be invested in the Fund on their behalf. The terms and conditions of the IDPS Guide or similar type document

will govern an Indirect Investor's investment in relation to the Fund and any rights an Indirect Investor may have in this regard.

Terms and conditions for collection of Tax File Numbers (TFN) and Australian Business Numbers (ABN)

Collection of TFN and ABN information is authorised and its use and disclosure strictly regulated by tax laws and the Privacy Act. Investors must only provide an ABN instead of a TFN when the investment is made in the course of their enterprise. You are not obliged to provide either your TFN or ABN, but if you do not provide either or claim an exemption, we are required to deduct tax from your distribution at the highest marginal tax rate plus Medicare levy to meet Australian taxation law requirements.

For more information about the use of TFNs for investments, contact the enquiries section of your local branch of the ATO. Once provided, your TFN will be applied automatically to any future investments in the Fund where formal application procedures are not required (e.g. distribution reinvestments), unless you indicate, at any time, that you do not wish to quote a TFN for a particular investment. Exempt investors should attach a copy of the certificate of exemption. For super funds or trusts list only the applicable ABN or TFN for the super fund or trust.
